STATES BOUND: Brian
BRIAN'S MOVING TO L.A.

By MYDRIM JONES

POP hunk Brian McFadden is said to be hunting for a love-nest in the States. The ex-Westlife star, 29, has been in Los Angeles working on a new album.

And Oz Fiancee Delta Goodrem is packing her bags for the West Coast after reportedly clearing out the mansion she rents with Brian in Sydney.

The singer, 25, is said to be switching continents in another bid to crack America's music market.

Her rep Jennifer Fontaine said: "This year will be a year where she spends a lot of time songwriting in the US."

Permanent

"She is prepared to spend a lot of time over there, but I wouldn't say it was permanent."

"She has been back and forth a lot in recent times and she is prepared to spend as much time there as necessary to make this album, but she still retains interests in Australia."

Last month, Brian and Delta said they hoped to get hitched later this year, provided they can fit the ceremony around major sporting events.

The have been engaged for more than two years. Brian, who has two daughters with ex-wife Kerry Katona, said: "We're trying to work out a date between the World Cup and the end of the Formula 1 season."

"It's messing all my plans up. I was going to produce another album but I won't get any work done with both events going on."
